

MATTERS ARISING

- The need for *Net-Negative* Processes
 - Sooner?
 - Later?
- Emergency Plan B?

MATTERS ARISING

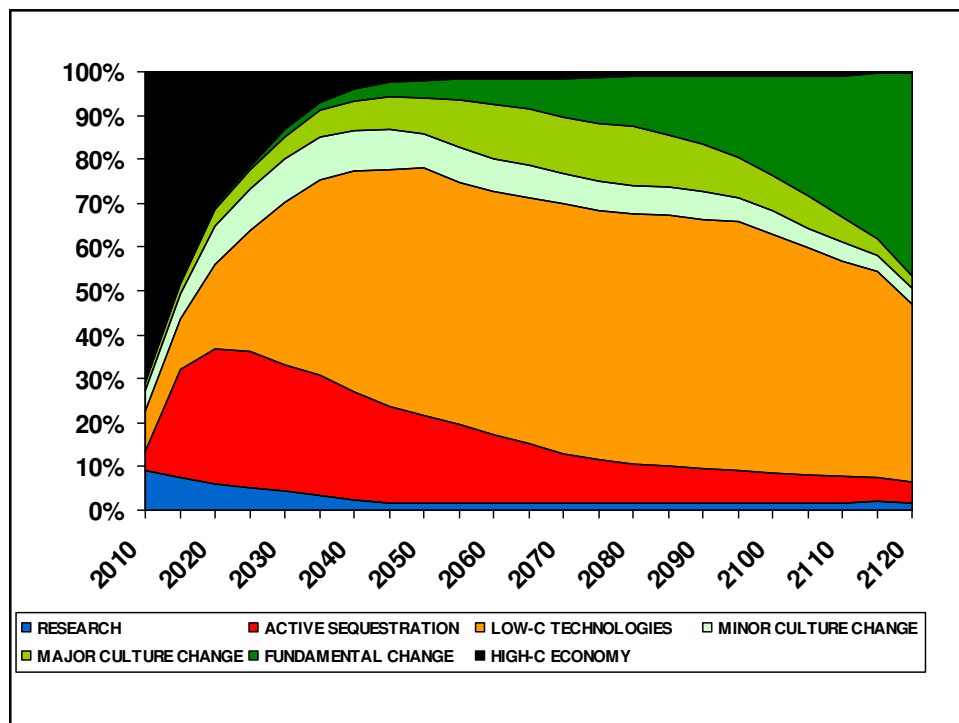

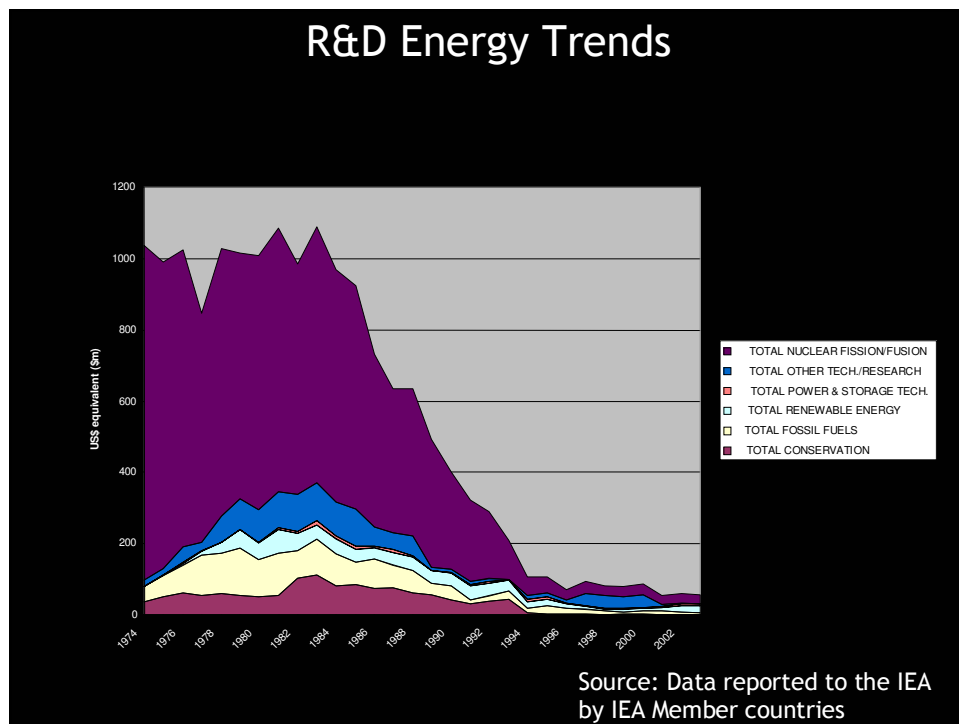

- Worst-case scenarios
 - Long-term
 - Collapse
- Need for an international agreement
- The metrics and targets
 - Concentrations (350ppm, 450, 550)
 - Temperature (2°C)
 - Emissions
 - Target level (60%, 80%, Zero)
 - Integral/'budget' (1000Gt)

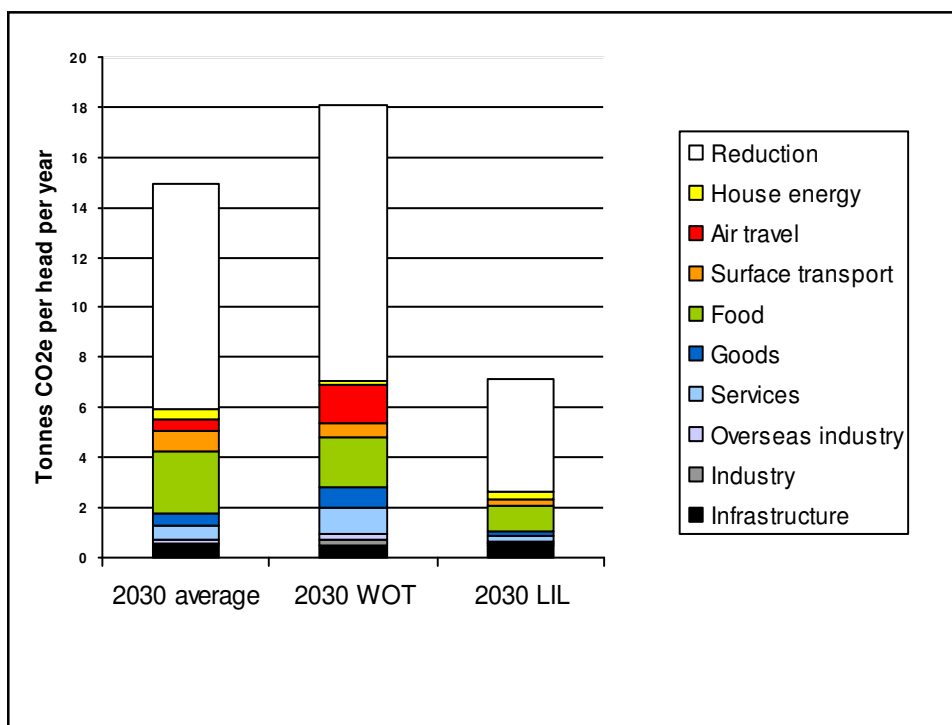

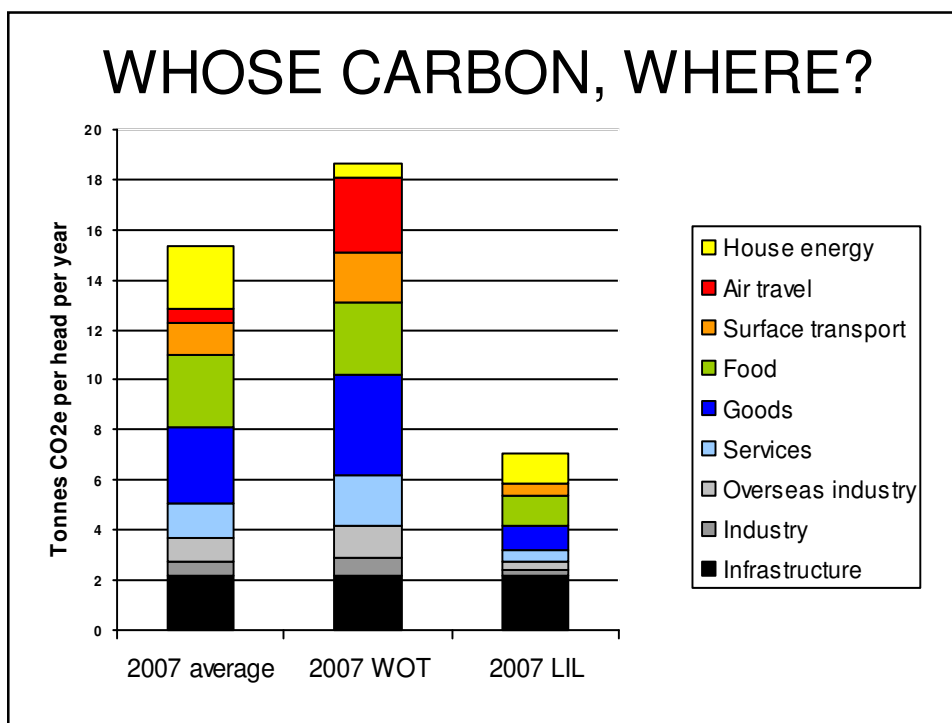

MATTERS ARISING

- Carbon pricing: upstream or downstream?
- Distinction of territorial and consumption emissions
 - The 100% rule
- The 'People Question'
- The 'Growth Question'

MATTERS ARISING

- There are still many sceptics
- Simple regulation is on the agenda
- The importance of electricity grids
 - And decarbonisation of the electricity supply
- The lack of coordinated R&D

APPARENT NON-NEGOTIABLES FOR THE GENERAL POPULATION

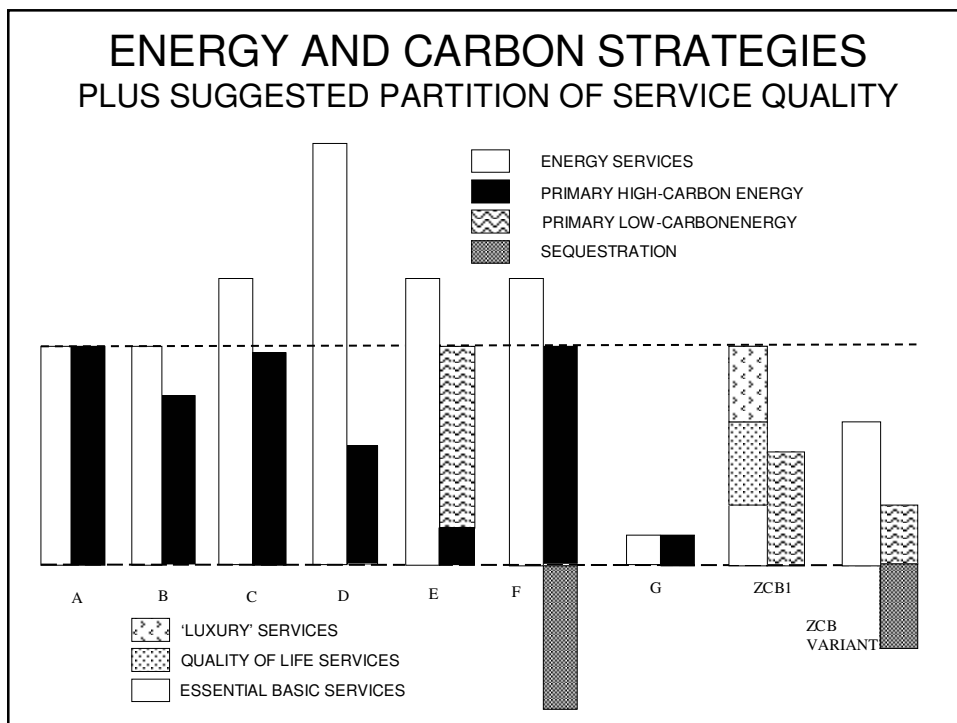

- Automatically warm house, around 20°C
- Private family vehicle
- Meat and dairy products at most meals
- Annual holiday abroad
- Regular supply of new consumer goods

THE SECRET NON-NEGOTIABLES OF MIDDLE-CLASS GREENIES?

- Generously-sized house
 - with character
 - with garden
 - In a pleasant location
 - In a suitable neighbourhood
- Having a rewarding job
- Work doesn't count for carbon emissions
- Maintaining a civilised discourse
 - No unseemly or illiberal proposals

THE SECRET NON-NEGOTIABLES OF MIDDLE-CLASS GREENIES?

- Compliance with family obligations
 - Including visits to relatives,
 - “Love miles” include friends and paramours
 - And advantageous choices for children
- Having children is OK, many as you like
 - Pets are OK too
- The right to split up and start a further household
- Quasi-recreational travelling
 - to South America, or maybe far east....ecotourism!

MATTERS ARISING

- A big gap between physical and political realities?
